**FOR LONG LASTING COMMERCIAL AND RESIDENTIAL  
LANDSCAPING APPLICATIONS.**

*Imagine a top quality mulch that beautifies and protects your landscape year after year, without any additional effort from you.*

*Well, you can stop dreaming. **PermaLife Mulch** is a low cost, high performance rubber mulch that won't blow away, or discolor, and it will keep your planting beds moist and insect free for years to come.*

***PermaLife Mulch** comes from tires that have been cleaned, shredded and recycled especially for landscaping.*

*So you are actually helping the environment when you choose it. Get **PermaLife Mulch**. It's a natural for beautifying your landscaping. To talk to one of our specialists, call **1-866-737-6254**.*

# PermaLife Mulch®

## IT ALL STARTS WITH TIRED OLD TIRES

### COLLECTION RECYCLING

*PermaLife Mulch* begins as used tires which are collected from Tire dealers. About 300 million of these scrap tires are retired in North America each year. Tires collected by **PermaLife** undergo a commercial process which separates the rubber from the metal wire.

### CLEANING COLORING

Once the rubber has recovered it undergoes an additional process which insures the removal of the remaining fibers and impurities. **PermaLife Mulch** is then finished in six vibrant colors (special order colors are available), which are non-toxic, non staining, long lasting, and fade resistant.

### LOCAL DELIVERY MULCH SERVICE

Delivery of **PermaLife Mulch** will be made to your driveway, either in 20 or 50 pound bags, or in bulk in easy-to-open super sacks which can contain 1,000 or 2,000 lbs. Smaller orders are sent UPS, while larger orders (over 750 lbs.) are delivered by one of our fleet of specially made "Moffett" trucks, which can deliver the mulch direct to your driveway.

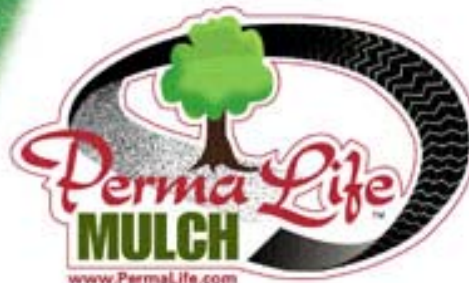

### LANDSCAPING BEAUTIFICATION

**PermaLife Mulch** is fast becoming the landscaper's choice because of its versatility. Use **PermaLife Mulch** to replace ordinary mulch for bedding and borders to retain moisture and retard weed growth, enhancing the beauty and vibrancy of the property. Five-year color warranty against total color loss. The 100% recycled rubber mulch is heavier than other mulching materials so it stays in place and can be used in place of rock or gravel covers.

### SPECIFICATIONS

- Saves time and money every year by replacing the need for annual mulching
- Environmentally safe and sensitive; does not consume forest resources
- Heavier and more durable than other mulch materials
- Will not float away in heavy rain or blow away with the wind
- Long-lasting, vibrant colors will retain its look year after year
- Non-toxic and non-staining
- Non-harmful to children, pets or animals
- Will not attract termites or insects like other mulches
- Protects against mosquito nesting, rubber mulch remains dry on top
- Helps retain vital moisture in the ground for plants, shrubs and trees
- Excellent drainage for use around plants and flower beds
- Color resist fading, decomposing or leaching
